Plans for May-June

- Resuming economic activities will take time – 3 to 4 months at least
- Transition will be longer (movement of labor, reactivation of work, capital flow etc.)
- Workforce stabilization is going to be a major challenge
- There will be still a sizeable population who will need support for an extended period
- Rural Economy is also facing the heavy burden of reverse migration
- For Urban locations, Rise Against Hunger India will cater to two groups:
 - Those facing economic distress and are in need of immediate assistance (migrant workers, casual laborers, housemaids, street hawkers etc.)
 - Groups who have been receiving our meals regularly (orphanages, elderly care homes, hostels, disabled care homes etc.)

Plans for May-June

- Over the next 6 to 8 weeks, we will mobilize 1.5 million more meals (to reach our target of 2.5 million meals by June end)
- Total 25,000 families (125,000 people approximately) will be served through this.
- Support 500 families for rural livelihood regeneration activities
 - Seeds and agricultural inputs
 - Capitals for small businesses and SHGS for local production and marketing
 - Off-farm community based activities

Ratna Nidhi Charitable Trust
